

## Petra Tour description

Coach Ride to the Yitzhak Rabin border crossing at Arabah, and meeting the Jordanian tour guide, with our representative's assistance. Traveling to Petra via Wadi Yatam, driving through some enchanted landscapes. We will make a short stop to freshen up. Two hours from the beginning of the trip we will arrive to Petra, enter the Petra nature reserve and take a short horse ride (those who wish to do so). Petra, the Nabatean capital, is carved into the rock, and situated in the far end of Wadi Musa. The road leading there meanders through the narrow deep winding and breathtaking Siq (the shaft) at the end of which the striking splendor of the burial shrine Al Khazneh (the treasury) is revealed to us. We will stop to take pictures and then arrive at our ultimate destination, the ancient and picturesque city of Petra. We will visit the theater, the façade, the Winged Lions Temple which is still under excavation and more... At noon we will have lunch at a restaurant. In the afternoon, we leave Petra and drive back to Aqaba, and if we have time, we will tour the city. Close to 7 pm we will cross the border back into Israel. Those who have difficulty-walking can hire a donkey drawn buggy for a supplement paid to the local people.
